

```
namespace MultiplatformApp.Infrastructure
{
    using MainViewModel;

    public class InstanceLocator
    {
        public MainViewModel Main{ get; set; }

        public InstanceLocator()
        {
            Main = new MainViewModel();
        }
    }
}
```
